

Let's talk about homelessness

Ever wondered what it would be like to not have a place to call home or to spend Christmas in temporary accommodation? What do you and your class think can be done to end homelessness for good?

- Split everyone into six groups and give each a debate card
- Then appoint a 'Chair' for each group. It will be their job to make sure everyone gets a chance to have their say
- You'll need to allow a set amount of time per group

To see if any of the debates changed their perceptions of homelessness you could look to set an essay or follow up discussion on what they have learnt.
